**Most Problems in Disaster Management
has been related to inadequate
Coordination and Control**

Workshop on Disaster Research, WCDEM 2007

Koordinasi dalam keadaan bencana

- Situasi Bencana tidak sama dengan situasi sehari-hari (!!):
 - *Waktu yang terbatas untuk berfikir, evaluasi, mengambil keputusan, melakukan tindakan*
 - *Target bukan merupakan pilihan bebas*
 - *Cara pikir*

SISTIM MANAJEMEN YANG BERBEDA,
TERMASUK SISTIM KOORDINASI DAN KOMANDO

Terminology*

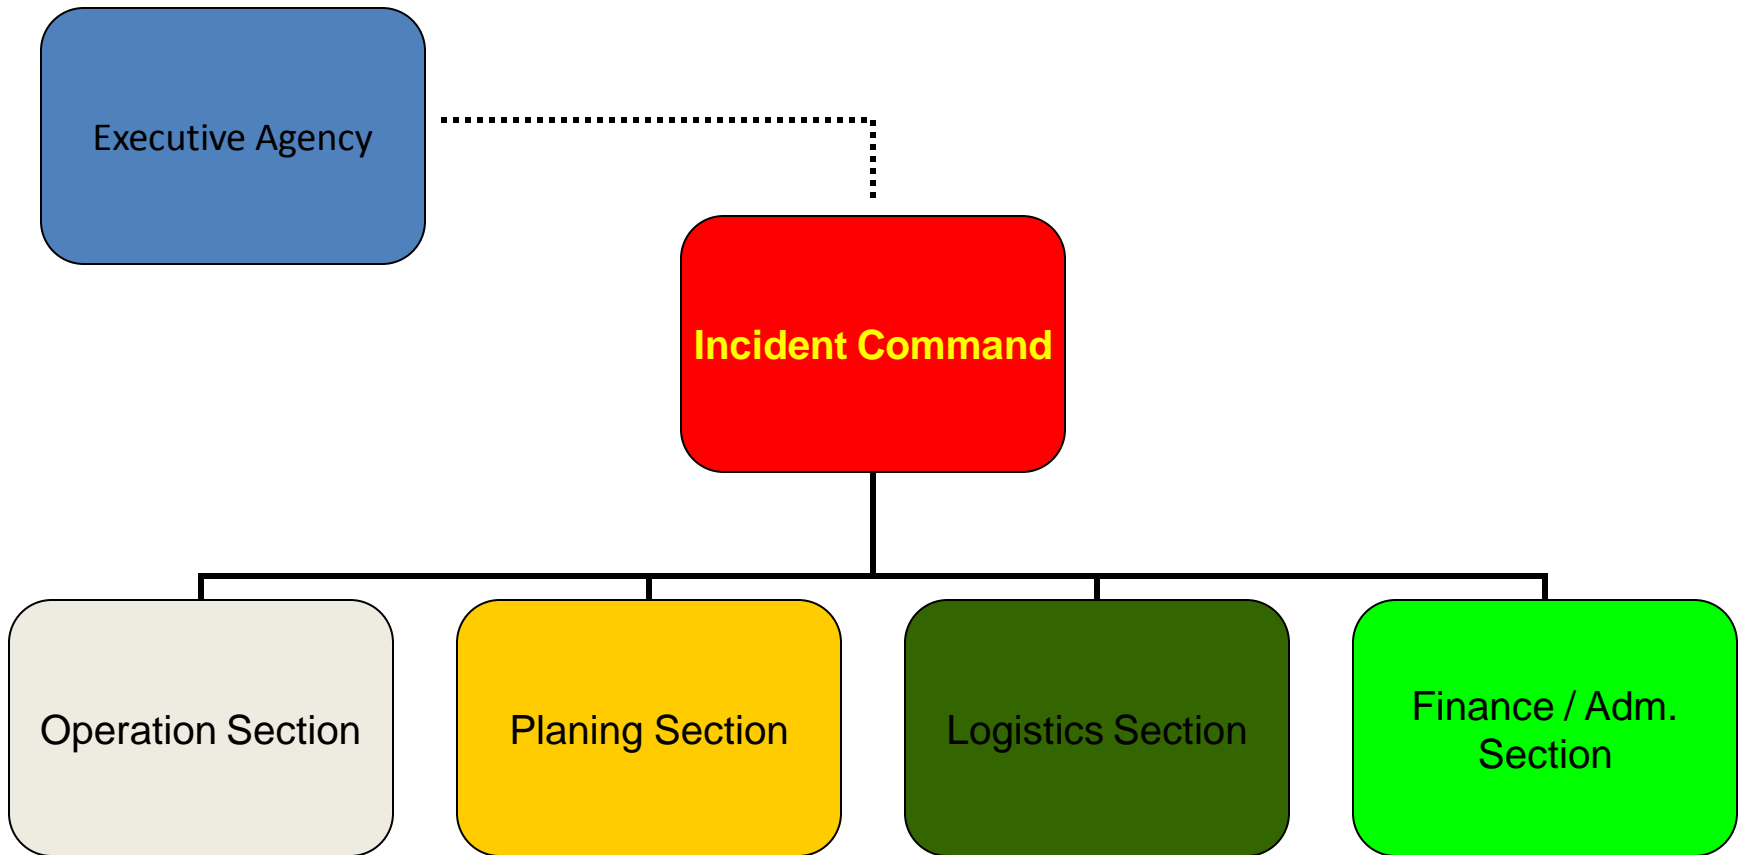

- Coordination:
 - Sharing of Task
- Collaboration:
 - Sharing of Resources
- Cooperation:
 - Sharing of Objective(s)

*(* World Association of Disaster and Emergency Medicine)*

Incident Command System

Center of Excellence in Disaster Humanitarian Assistance describes the **Incident Command System (ICS)** as, "a set of personnel, policies, procedures, facilities, and equipment, integrated into a common organizational structure designed to improve [emergency](#) response operations of all types and complexities." ^[1] ICS is based upon a flexible, scalable response organization providing a common framework within which people can work together effectively. These people may be drawn from multiple agencies that do not routinely work together, and ICS is designed to give standard response and operation procedures to reduce the problems and potential for [miscommunication](#) on such incidents. ICS has been summarized as a "first-on-scene" structure, where the [first responder](#) of a scene has charge of the scene until the incident has been declared resolved, a superior-ranking responder arrives on scene and seizes command, or the Incident Commander appoints another individual Incident Commander.

I C S : Basic Structure

I C S :

- Kesamaan Istilah dan Pengertian
 - *Incident Commander*
 - *Section, Branch, Post, Center, Area*
- Prinsip-prinsip koordinasi:
 - *Command line*
 - *Transfer of Command*
 - *Unity command*
- Struktur organisasi:
